Davos-groomed Putin envoy says retarded space program is key to world peace

How will Moscow protect the Multipolar World Order from the Satanic West after Donbass' rare earth metals are liberated by Haliburton?

One wrong move and the imminent launch of BRICS' gold-backed currency could go up in smoke. At the risk of sounding hyperbolic, the fate of Kherson's rare earth metals hangs by a thread.

Mercifully, details of the Master Plan are being slowly revealed by Kremlin White Hat Kirill Dmitriev, the Stanford/Harvard-educated, Goldman Sachs-alumnus WEF Young Global Leader who now serves as the Special Representative of the Russian President for Investment and Economic Cooperation with Foreign Countries, in addition to being a key member of Moscow's Ukraine peace (?) delegation:

The Alternative View Presents Roger Anderton

Date: 4 May 2025

Time: 11:00 - 16:00

Location: The Assembly Rooms, Glastonbury, Somerset, UK

"Einstein Wrong and Special Relativity Revisited"

source: @kadmitriev

Dmitriev knows a thing or two about combining “our minds and technology to serve the glory of humanity”. As head of the Russian Direct Investment Fund (RDIF), he brokered a deal that turned Russia into a manufacturing and distribution hub for AstraZeneca’s COVID shot. The Russian government later teamed up with AstraZeneca to test a Sputnik V-AstraZeneca “cocktail”. Dmitriev was also instrumental in organizing joint COVID “vaccine” research with Pfizer, hypothesizing that a Pfizer-Sputnik V hybrid goo would be “a very successful combination”.

Head of RDIF reports on joint research of Sputnik and Pfizer vaccines in two countries

According to Kirill Dmitriev, a combination of Sputnik with other drugs will be an effective way to cope with coronavirus mutations

MOSCOW, October 13. /TASS/. The creators of the Sputnik vaccine are conducting joint research with Pfizer in two countries, Kirill Dmitriev, head of the Russian Direct Investment Fund (RDIF), told reporters on Wednesday.

"We already have a joint study with Moderna in Argentina, and Argentina is now studying the combination of Sputnik and Moderna. There are also two other countries that are now studying the combination of Pfizer and Sputnik, and we believe that this will be a very successful combination," he said.

The head of the Russian Direct Investment Fund emphasized that the combination of Sputnik vaccines with other vaccines will be an effective way to cope not only with the delta strain, but also with future mutations of the coronavirus.

During the “pandemic”, Kirill made numerous appearances on Western news networks, where he sang the praises of each and every barely-tested genetic vaccine on the market. The more the merrier, so long as everyone can get injected.

We are told the speed of light cannot be exceeded. What if that is wrong? What if Einstein was wrong and the theory of General Relativity is incorrect? Could that open up a whole new world of possibilities?

In May 2025 The Alternative View returns to Glastonbury where Roger Anderton will be asking those questions and putting forward an exciting new model.

Roger Anderton is from the John Chappell Natural Philosophy Society – a group that was formed on the idea that Einstein’s relativity is wrong (especially special relativity is wrong). In relativity there are many paradoxes (such as twin paradox) which are really contradictions; thus the believers in relativity are talking nonsense. In trying to get this information out to the general public we have found our voice has been mostly blocked.

For first time in UK we are presenting publicly the film Einstein Wrong by David de Hilster which has been prevented from being shown at film festivals. Physics has been corrupted by relativity nonsense.

Event hosted by Gary Fraughen.

An interesting exchange from Dmitriev's interview (source: CNN)

Surely, no one can deny Dmitriev's commitment to international cooperation in the service of humanity.

Let's return to Russia's participation in Musk's black budget space program.

It's a match made in heaven. After all, Dmitriev and Musk have worked together in the past:

> *The Russian Direct Investment Fund also managed to make a mark with its investments in Elon Musk's Hyperloop. In 2016, Dmitriev said that* ***the fund had increased its investments in the project "multiple times over."*** *That same year, the company's co-founder and chairman of the board of directors of the project operator Hyperloop Technologies Inc., Shervin Pishevar, said that a high-speed vacuum train could appear in Russia. It was assumed that the first highway would be able to connect the capital's airports.* ***In the end, nothing was built, and in December 2023, Hyperloop One announced the termination of its operations.***

A shrewd business move. No wonder Dmitriev is eager to partner with Musk again.

By the way: the above blockquote is from a recent profile of Dmitriev published in Russian media. It's a very enlightening read! —

In conclusion: One scam ends, another begins. This is how the scam cycle works.
